

ALICE +

Bringing Pretax Spending to Washington

What is Alice?

Alice automates pretax spending so employees keep more of what they earn.

Employees connect their credit/debit cards, and Alice looks for eligible purchases. With Alice, employees save on **glasses and contacts, MetroCards, and many more!**

No forms, no math, no acronyms

Once employers connect Alice to their payroll system, employees can start saving right away on all eligible purchases. Setup takes less than 15 minutes and Alice requires no ongoing maintenance. That means **no extra work for owners or HR.**

No cost to employers

Unlike traditional benefit providers, Alice doesn't charge per-employee or service fees. Alice splits payroll savings with employers. In other words, **Alice only makes money when you and your employees save money.**
